

Materials Science

Spring 2017 Seminar Series

School for Engineering of Matter, Transport and Energy

| DATE | SPEAKER | TITLE |
|-------------------------------------|--|---|
| February 3 12:15 PM WGHL 101 | Naresh Thadhani School of Materials Science & Engineering Georgia Institute of Technology | <i>"Meso-Scale Time-Resolved Sensing of Shock Compression Effects in Heterogeneous Materials"</i> |
| February 17 12:15 PM WGHL 101 | Michael Strano Dept. of Chemical Engineering Massachusetts Institute of Technology | Title to be announced |
| March 3 12:15 PM WGHL 101 | Wei Chen Dept. of Mechanical Engineering Northwestern University | <i>"Design of Emerging Engineered Material Systems"</i> |
| March 27 10:45 AM BDBB 105 | <i>Distinguished Scholar Lecture</i> Norman Wagner Dept. of Chemical Engineering University of Delaware | Title to be announced |
| March 31 12:15PM WGHL 101 | Mark Asta Dept. Of Materials Science & Engineering University of California, Berkeley | <i>"Computational Modeling for Materials Discovery"</i> |
| April 21 12:15 PM WGHL 101 | Amit Misra Dept. Of Materials Science & Engineering University of Michigan | <i>"High-Resolution in situ TEM Studies of Dislocation Dynamics"</i> |
